RESOLUTIONS

PERTAINING TO THE

COUNCIL FOR POSTSECONDARY EDUCATION

HOUSE FLOOR RESOLUTION
1975-49

by Representative Boldt

The Council on Higher Education is requested to make a thorough examination of the manner in which the Joint Center for Graduate Study is administered and, in furtherance thereof, is also requested to conduct hearings in the Tri-Cities area and solicit the opinions of the past and present faculty, administrators and students of the Center and of other interested citizens; and report its findings and recommendations to the House Higher Education Committee by December 1, 1975.

SENATE RESOLUTION
1975-130

by Senators Guess, Sandison, Benitz, Goltz, Odegaard, Scott and Newschwander

The Council for Postsecondary Education, with the cooperation of the participating institutions, is directed to examine the educational functions of the Joint Center for Graduate Studies, including but not limited to, consideration of:

1) the local need for postsecondary education at the upper-division level,
2) alternative means and mechanisms for meeting those educational needs,
3) the resource implications of those alternatives,
4) the impact of the Center's functions on other postsecondary institutions in the state,
5) the impact of alternative administrative structures on the Center's ability to fulfill its designated educational functions,
6) the joint federal-state role in support of the Center's educational functions.

The Council for Postsecondary Education is requested to report its findings and recommendations to the Senate Committee on Higher Education on or before November 1, 1975.

Basis For Above Resolutions:

Local concern over turnover of administrators, administrative arrangements among participating schools, availability of upper-division course work and creditability of such work for baccalaureate degrees.

SENATE RESOLUTION
1975-131

by Senators Sandison, Goltz, Benitz, Scott, Odegaard, Donohue and Guess

The Senate Higher Education and Ways and Means Committees shall, with the cooperation of the Council for Postsecondary Education and various public universities and state colleges, the State Board for Community College Education, the Office of Program Planning and Fiscal Management, and legislative staff, develop, test and recommend a standard method of determining the cost of higher education which relate to instruction of students, both inclusive and exclusive of related capital costs. Such methodology should contain provision for estimating per student costs for the biennium following legislative appropriations of funds for higher education institutions.

The Council for Postsecondary Education shall survey the methods used by those states which relate student tuition and fees to higher education costs, along with the policies of those states as to the portion which is to be borne by students. In addition, the Council for Postsecondary Education shall make recommendations concerning the proportion of cost which should be borne by the various categories of students in Washington's public universities, state colleges and community colleges, including recommendations dealing with waivers of tuition and/or fees for various categories of individuals now set forth by statute.

The Council for Postsecondary Education shall submit a preliminary report of its findings and recommendations to the Senate Committee on Higher Education on or before November 1, 1975 and a final report by not later than January 1, 1976.

Basis For The Resolution:

The resolution was a result of discussions of proposed tuition and fee increases and S.B. 2949 proposed by Senator Lewis. Members of the Senate Higher Education Committee felt it appropriate to consider tuition and fees in relation to educational costs and determine the proportion which should be borne by students as a matter of public policy.

SENATE RESOLUTION
1975-132

by Senators Scott, Sandison, Goltz, Benitz, Odegaard, Donohue and Guess

The Senate Committee on Higher Education, with cooperation of the Council for Postsecondary Education, conduct a study of the affirmative action

programs in the state institutions of higher education including but not limited to a study of:

-- the qualifications of the minorities and women who are allowed into the program;

-- the recruitment of out-of-state students by the institutions to comply with the requirements; and

-- the claims of reverse discrimination.

The Committee submit their findings and recommendations to the first special session of the legislature convening after January on Higher Education on or before November 1, 1975.

Basis For The Resolution:

Admission policies in professional schools.

SENATE RESOLUTION
1975-133

by Senators Goltz, Guess and Odegaard

The Senate Committee on Higher Education, with the cooperation of the Council for Postsecondary Education, State Board for Community College Education and the Office of Program Planning and Fiscal Management examine long-range planning for higher education in the State of Washington to determine what procedures are currently in operation and the future outlook; and that the Senate Committee determine if the legislature does indeed need to direct how planning responsibilities are to be divided and shared.

That Committee submit their findings and recommendations to the first special session of the legislature convening after January 1, 1976.

Basis For The Resolution:

Interest on the part of sponsors in the planning process and how the Council's effort relates to those of the State Board for Community College Education, institutions and the Office of Program Planning and Fiscal Management.

SENATE RESOLUTION
1975-134

by Senators Walgren and Sandison

The Council for Postsecondary Education, with the cooperation of the public institutions of higher education in the state, conduct a review of veterans receiving benefits under the G. I. Bill of Rights to determine future projections of how many veterans would be eligible for resident status, the fiscal impact of such extension of benefits, and the relationship to and effect upon existing student financial aid programs.

The Council for Postsecondary Education submit a report and recommendations to the Senate Committee on Higher Education on or before November 1, 1975.

Basis For The Resolution:

Senate Bill 2316 was introduced by Senator Walgren and others to extend resident status to veterans receiving benefits under the G. I. Bill. In discussing S. B. 2316, the Senate Higher Education Committee indicated uncertainty as to the long-range fiscal impact of the bill, in particular the number of veterans who might be attracted to Washington.

SENATE RESOLUTION
1975-137

by Senators Guess, Goltz, Sandison, Odegaard, Benitz and Donohue

As part of its comprehensive planning responsibilities the Council for Postsecondary Education shall undertake a study of the postsecondary educational needs, current and projected, of the Spokane metropolitan area and the most efficient means of satisfying those needs, including but not limited to:

1) a determination of the nature and magnitude of the needs for educational services, current and projected, in the Spokane metropolitan area;

2) the extent to which those needs are being, or will be, met through existing programs;

3) a determination of the relative effectiveness and cost to the student and the state, of alternative delivery systems in meeting those needs;

4) the extent to which the state should attempt to expand services to meet determined needs and the effect of such expansion on the ongoing programs of local private institutions;

5) a clarification of the various institutions' roles in meeting the identified needs in the Spokane area.

The Council for Postsecondary Education is requested to report its findings and recommendations to the Higher Education Committee of the Washington State Senate on or before November 1, 1975.

Basis For The Resolution:

Concern expressed over the possible expansion of Eastern Washington State College into the City of Spokane and the impact on existing institutions.

SENATE FLOOR RESOLUTION
1975-144

by Senator Washington

The Council for Postsecondary Education study the problem of nonimmigrant aliens paying nonresident tuition and fees, the legal and fiscal implications of extending resident tuition and fee rates at institutions of higher education to such aliens, the visa classifications as defined by Title 8 section 1101(a)(15) under the Immigration and Nationality Act as in the Codes of the Laws of the United States of America, and any other problems which might arise if such rights are extended.

The results of the Council study and any recommendations shall be reported back to the Senate Higher Education Committee by November 1, 1975.

Basis For The Resolution:

Senate Bill 2508 was introduced by Senator Washington to grant resident status to certain non-immigrant aliens residing in Washington. The problem relates particularly to children of JAL employees working in Moses Lake. The bill did not pass out of committee.

1975-77 OPERATING BUDGET

FOR HIGHER EDUCATION

1975-77 OPERATING BUDGET FOR HIGHER EDUCATION

The legislature approved a total of $984.4 million (including salary adjustments and all funds) for the operations of the state's public higher education institutions. This amount includes $611.6 million in general funds, $162.2 million in general local funds, $201.2 million in grants and contracts, $8.0 million in federal funds at Washington State University, and $1.4 million in medical aid and accident funds at the University of Washington (see Table V). The general fund appropriation of $611.6 million is comprised of $547.1 million for regular operations and $64.4 million for continuing the average 12 percent salary increase granted in March of 1975. Exclusive of salary increase money, the 1975-77 general fund appropriation of $547.1 million represents an increase of 8.0 percent or 40.7 million above estimated general fund expenditures for the 1973-75 biennium. The 1975-77 general fund appropriation (excluding salary increase funds) is $.9 million above the Governor's recommendation of $546.2 million.

On first glance this would appear to indicate that the legislature actually increased the budget above the Governor's recommendation. This is not the case, however, since the legislature reduced estimated expenditures from unrestricted local funds in the amount of $26 million, resulting in a total reduction below the Governor's recommendation of $25.1 million. This is because the legislature did not adopt the tuition and fee increases which had been recommended by the Governor and built into his budget as anticipated increases in local funds.

General

1. While the legislature continued to fund salary adjustments which were

effective March 1, 1975, no funds for additional salary adjustments were provided for the ensuing biennium. The salary adjustment granted was calculated to provide a 12 percent average salary increase above the 1973-74 salary base. The Governor had previously recommended that additional wage increases of approximately 6 percent be granted September 1, 1975. This recommendation was not adopted by the legislature. The following is a schedule listing the appropriation to each institution in order to continue March 1, 1975 salary increases through the 1975-77 biennium.

Institution	General Fund
(1) University of Washington	$24,293,441[1]
(2) Washington State University	11,159,094
(3) Eastern Washington State College	2,948,494
(4) Central Washington State College	3,113,800
(5) Western Washington State College	3,285,324
(6) The Evergreen State College	1,245,356
(7) State Board for Community College Education	18,453,042
Total Available for Continuation of March 1, 1975 Salary Increases	$64,498,551

[1]This amount includes $41,276 from the Accident fund and $41,276 from the Medical Aid fund.

2. A major legislative action this year was to appropriate funds by major functional program and limit the institution's ability to transfer appropriated funds from one program to another. For example, specific amounts were appropriated for student services, instruction, etc., with the stipulation that a school may transfer up to 5 percent between programs. In past years, each school received one amount and had wide discretion as to the allocation of those funds to specific programs.

3. The legislature used the contracted enrollment levels generated by the Governor's office in the formula calculations.

4. Percentage of the instruction formula funded for universities was reduced from the Governor's recommendation of 72 to 70. State college instruction level was decreased from 75 percent to 72 percent and community college instruction funding was reduced from 75 percent to 72 percent.

5. Tuition and fee increases were not adopted by the legislature.

Institutions

1. University of Washington

   A. Not less than $1,450,000 mandated to be spent for the educational opportunity program.

   B. $275,000 was added to plant maintenance program to care for facilities and grounds previously under intercollegiate athletic budget.

   C. $234,586 was provided for a program of research and analysis of health care and health care programs in the State of Washington.

   D. WAMI program funded entirely from appropriation to University of Washington.

   E. Minority Affairs program funded within formula ($1.6 million reduction).

   F. Reduced summer session funding from 50 percent to 45 percent on a contracted enrollment base.

   G. $900,000 added for family practices medical education. (SB 2619)

2. Washington State University

   A. Summer session funded at 35 percent of formula.

   B. Funded the Hotel Restaurant Program for Seattle area (approximately $300,000).

   C. Added approximately $500,000 for agricultural research to Governor's request.

   D. Experimental Education program put within formula.

3. Western Washington State College

   A. Funded aquatic studies at Shannon Point at a $35,000 level.

   B. Put Minority Affairs and Disadvantaged Student Tutor program within formula ($70,000 reduced).

   C. A proviso directs that Western shall not expend any appropriated funds for the development of a Ph.D. program in any academic discipline or subject field.

4. Central Washington State College

   A. Equal Opportunities Program funded within formula.

   B. Funded computer services transfer program ($250,000).

   C. Increased separately budgeted research $40,000 over the Governor's recommendation.

5. Eastern Washington State College

   A. Cut out proposed building rental in Spokane of $85,300.

   B. Master of social work was funded within formula instead of being funded on a non-formula basis.

   C. Increased separately budgeted research $10,000 over the Governor's budget.

6. The Evergreen State College

   A. The legislature funded an enrollment growth of 200 FTE students per year.

   B. $60,000 provided for media services in library.

   C. Cut funding for learning service center ($100,000).

7. Community Colleges

   A. Funded three new State Board for Community College Education administrative positions ($118,000).

   B. Added approximately $287,000 for dental hygiene programs (7 to 1 student/faculty ratio).

   C. Approximately $1 million provided for management information system.

   D. Ten smallest community colleges funded at levels above 72 percent depending on their size ($1.8 addition).

   E. Libraries were reduced by approximately $1.3 million.

   F. Olympia Vocational-Technical Institute prohibited from becoming a comprehensive community college.

Eastern Washington State College

House Changes: Reductions totaling $1,148,770 through use of lagged enrollments ($432,028 net) moving minority programs into Student Services formula ($150,000), library operations reductions ($39,300), faculty staffing reductions from 75 percent to 72 percent of formula ($563,922) and other changes (+$36,480) explained in footnote 5.

Senate Changes: Restorations of $476,722 through using contract enrollments ($432,028) increasing summer session faculty partially offset by further decreases in the regular session (+$146,564) and other reductions (see footnote L) of $101,870.

House concurred in Senate changes resulting in a net reduction of $672,048 below the Governor's budget.

The Evergreen State College

House Changes: Reductions totaling $661,743 through reducing faculty staffing from 75 percent to 72 percent of formula ($230,781), library reductions ($174,677) and other changes (see footnote 6) of -$256,285.

Senate Changes: Restorations totaling $148,627 by increasing summer session faculty partially offset by further decreases in the regular session ($36,999), media restoration in the library program ($60,000) and other changes (see footnote M) of +$51,628.

House concurred in Senate changes resulting in a net reduction of $513,116 below the Governor's budget.

Community Colleges

House Changes: Reductions totaling $12,674,568 through reducing faculty staffing from 75 percent to 72 percent of formula ($3,400,000) and other changes, the largest of which was an $8,000,000 reduction in Student Services (see footnote 7) which totaled $9,274,568.

Senate Changes: Further reductions of $4,193,643 through recalculating faculty reductions at 72 percent of formula ($2,567,000), reductions in library growth ($1,264,233) and staffing ($80,300), and other changes (see footnote N) of -$282,110.

Conference Committee Changes: Reduction in amount set aside for Dental Hygiene ($117,734), raising total reductions to $16,985,945 below the Governor's budget.

NOTE: References to House concurrance reflects no change in Senate budget by free conference committee. House originally did not concur, taking the budget into conference.

HIGHER EDUCATION BUDGET STATUS
EXPLANATION OF HOUSE CHANGES

(1) University of Washington: ($5,592) Cut Administration workload increase; ($60,300) Cut in Plant Operation and Maintenance, Other Activities; ($119,000) Put Reading Skills Center in Instruction formula; ($249,255) Health Services instruction workload increase cut in half; ($11,426) Cut program improvement at Richland Graduate Center; ($1,376,323) Organized activities related to instruction: cut general improvements ($976,323) and Dental Clinic program ($400,000); ($593,817) Harborview Hospital increase reduced from $1,321,554 to $727,737; ($258,360) Extension: Cut $200,000 for KCTS and general improvements of $58,360; ($8,120) Separately budgeted research; $234,586 Added in state agencies budget (SHB 866, Section 86) for School of Public Health and Community Medicine. EXPLANATION OF HOUSE CHANGES
(Continued)

(a) University of Washington: Put minority affairs inside Student Services formula.

(b) University of Washington: Library collection size increase from 5% to 4%.

(c) University of Washington: Summer session faculty cut from 50% to 45% ($547,845); regular 72% to 70% ($2,343,614).

(d) Washington State University: Put experimental education ($100,147), student publications advisor ($44,500), and academic standing committee ($67,000) all into Student Services formula.

(e) Washington State University: Changed library binding factor from 85% to 76% of subscriptions.

(f) Washington State University: Summer session faculty cut from 50% to 45% ($219,202); regular 72% to 70% ($968,954).

(g) Western Washington State College: Put minority/disadvantaged programs inside formula.

(h) Western Washington State College: Changed library binding factor from 85% to 18%.

(i) Western Washington State College, Central Washington State College and Eastern Washington State College: Regular session faculty staffing cut from 75% to 72%.

(j) Central Washington State College: Put Equal Opportunity Program inside Student Services formula.

(k) Eastern Washington State College: Put minority programs inside Student Services formula.

(l) Eastern Washington State College: Changed operations cost per FTE staff in library.

(m) The Evergreen State College: Does not include revenue increase associated with adding back 200 students per year.

(n) The Evergreen State College: Library: changed collection deletion from 3% to 1.4%; changed binding from 85% to 25% of subscriptions bound; allowed lower operation costs per FTE staff.

(o) The Evergreen State College: Regular session faculty staffing cut from 75% to 72% (computed prior to adding back 200 students per year).

(p) Community Colleges: Faculty staffing reduction amount (75% to 72%) is an approximation.

(ff) Western Washington State College: The lag projection method holds constant the current year attendance for both years of the 1975-77 biennium, whereas the school had projected an enrollment decline.

EXPLANATION OF SENATE CHANGES FROM HOUSE

(A) The Senate restored all institutions of higher education to the same contracted enrollments as recommended by the Governor, thus cancelling the House's lagged enrollment and lagged enrollment reserve adjustments.

(B) University of Washington: Additional adjustment for regular session faculty staffing cut from 72% to 70% on contracted enrollment base.

(C) Washington State University: Summer session faculty reduced from 45% to 35% ($142,364); additional adjustment for regular session faculty staffing reduction from 72% to 70% on contracted enrollment base ($41,516).

(D) Four State Colleges: Summer session faculty staffing increased from 55% to 65%: WWSC--$247,476, CWSC--$261,060, EWSC--$170,240, TESC--$64,017; additional adjustment for regular session faculty staffing reduction from 75% to 72% on contracted enrollment base: WWSC--$14,895, CWSC--($17,103), EWSC--($23,676), TESC--($27,018).

(E) The Evergreen State College: This amount identified in Senate notes for increasing media appropriations.

(F) Community Colleges: Library program reduced by allowing only 12% growth vice flat 100,000 volumes in Governor's budget ($1,264,233); in calculating library staff costs reduced average salary $365/year below Governor's level ($80,300).

(G) Community Colleges: Faculty staffing level reduced from 75% to 72% @ $1,989,000 per 1% of change = $5,967,000 less $3,400,000 = $2,567,000.

(H) University of Washington: Student service increase $500,741; increase in physical plant for intercollegiate athletics $275,000; transfer and restoring of WAMI for contract with WSU $500,000; added for Dental Clinic $400,000; added for academic computing $400,000; added for Family Practice Act (SB 2619; Ch. 108, L 75, E1) $900,000; increase for Harborview Hospital $3,414; faculty support inflation adjustment of 7.4% and 7.2% vice 11% each year in Governor's budget ($213,819). Total: $2,765,336.

(I) Washington State University: Student service increase $198,285; restored hotel and restaurant program in Puget Sound area $300,000; transfer WAMI to UW for contracting to WSU ($432,570); added to Diagnostic Center $300,000; faculty support inflation adjustment of 7.4% and 7.2% vice 11% each year in Governor's budget ($162,759); net of various minor adjustments $24,421. Total: $227,377.

(J) Western Washington State College: Added to separately budgeted research for aquatic studies $35,000; faculty support inflation adjustment of 7.4% and 7.2% vice 11% each year in Governor's budget ($53,986); fringe benefits adjustment ($50,875); net of various minor adjustments ($14,995). Total: ($84,856).

(K) Central Washington State College: Added to separately budgeted research $25,000; faculty support inflation adjustment of 7.4% and 7.2% vice 11% each year in Governor's budget ($55,282); net of various minor adjustments ($8,717). Total: ($38,999).

(L) Eastern Washington State College: Corrected programming error in student services $79,240; faculty support inflation adjustment of 7.4% and 7.2% vice 11% each year in Governor's budget ($53,240); removed House-added Master of Social Work funding and included it in the formula ($131,717); net of various minor adjustments $3,847. Total: ($101,870).

(M) The Evergreen State College: Student services' reduced ($12,134); $102,761 added to instruction; faculty support inflation adjustment of 7.4% and 7.2% vice 11% each year in Governor's budget ($22,627); net of various minor adjustments ($16,372). Total: $51,628.

(N) Community Colleges: Restored three of new State Board positions and corrected a salary omission $142,086; reduced personal service contracts by one-half ($250,110); deleted salary increments in District Administration on basis that they were funded in 12% salary increases ($22,768); reduced travel ($141,236); corrected error in Governor's budget re: fixed costs in plant maintenance and operation $219,685; cut in plant administration and trucking costs ($103,000); reduced District Administration equipment ($38,611); net reduction of various adjustments ($87,156). Total: ($282,110).

(O) Community Colleges: Conference Committee reduced dental hygiene program by $117,734.

1975-77 CAPITAL BUDGET

FOR HIGHER EDUCATION

1975-77 CAPITAL BUDGET

The 1975-77 capital budget for Washington's public institutions of higher education totals $173.1 million. This includes $87.6 million to continue projects starting in prior biennia (reappropriations) and $85.5 million for new projects. Of the $85.5 million approved for new projects, the legislature approved $48.3 million in the four-year institutions and $37.2 million in the community college system. This compares to the Governor's request of $46.8 million and $36.9 million respectively and reflects a total net increase of $1.8 million.

The amount approved for new projects includes $57.5 million (67.3%) in general revenue bonding. Other sources of funding include $17.9 million (20.9%) from tuition and trust funds and $10.1 million (11.8%) from local institutional funds (see Table VI).

In funding capital projects for 1975-77, the legislature relied heavily on general obligation bonding. With the passage of HJR 52 in 1972 this source became readily available for capital funding. In that same year, the voters also approved Referendum 31 which provided $50 million in general obligation authority to the community colleges. Although HJR 52 creates a large capacity for bonding, legislative action indicated considerable caution in creating long-term debt secured only by general tax revenues.

In the case of the community colleges, the legislature approved projects within the limitation of the amount remaining from Referendum 31, $22.4 million, and from HJR 52 bonds which could be repaid from estimated tuition collections, $14.8 million, as provided in HB 1143 (all of the

"tuition" portion of community college fees are available for bonding). This action resulted in some change in priorities from those recommended by the Governor in order to fit the projects to the funds available within the policy constraint.

In the case of the four-year institutions, only four projects were authorized from general obligation bonds not secured from institutional revenues: (1) $9.0 million for Washington State University veterinary science building; (2) $2.5 million for a fieldhouse at Eastern Washington State College; (3) $750,000 for Old Main renovation at Western Washington State College; and (4) $125,000 for utility systems at The Evergreen State College. Eight million dollars for improvements to the University of Washington Hospital were tied to estimated patient fee income under HB 1091.

Although this general policy is somewhat constraining, it accomplishes several things, it: (1) reduces institutional dependence on state general funds for capital projects; (2) eliminates the need for large reserves required when limited obligation bonds are issued, thereby increasing the amount of bonding potential from tuition fees; and (3) secures a more favorable rate of interest for the bond issue.

The following tables outline the legislature's action on the Governor's capital budget recommendations.

*This figure does not agree with the Council on Higher Education's Summary of Governor's Capital Recommendations issued in January, 1975, because in a memorandum dated April 4, 1975, the Governor requested additional monies for the University of Washington Hospital project ($5,634,000) and Bioscience Building ($310,300) at Washington State University. Also, the College Activities Building proposed by the Governor as a reappropriation was erroneously listed as a new project in the January, 1975 report ($1,738,202).

CERTIFICATE

I, Sidney R. Snyder, Secretary of the Senate of the State of Washington do hereby certify that the attached is enrolled Substitute Senate Bill No. 2519 *as passed by the Senate and the House of Representatives on the dates hereon set forth.*

Secretary of the Senate

STATE OF WASHINGTON
OFFICE OF THE GOVERNOR
OLYMPIA

DANIEL J. EVANS
GOVERNOR

May 31, 1975

To the Honorable, the Senate
of the State of Washington

Ladies and Gentlemen:

I am returning herewith without my approval as to one section Substitute Senate Bill No. 2519 entitled:

"AN ACT Relating to the council on post-secondary education."

This bill amends current law on the structure and duties of the Council on Higher Education and changes its name to the Council on Post-Secondary Education.

Section 7 contains amendatory language which requires five out of the nine voting members to approve any action taken by the council. The present by-laws of the council require five affirmative votes to approve any substantive action, but not for procedural matters or committee actions where other voting rules and quorum requirements may apply. A statutory mandate requiring five votes for all actions, whether substantive or procedural, is unduly restrictive and serves no useful purpose.

With the exception of section 7, which I have vetoed for the foregoing reasons, the remainder of Substitute Senate Bill No. 2519 is approved.

Respectfully submitted,

Daniel J. Evans

Daniel J. Evans

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

PART I—SUBSTANTIVE CHANGES RESPECTING COUNCIL, ITS POWERS AND DUTIES

Section 1. Section 1, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.010 are each amended to read as follows:

There is hereby created the council ((on higher)) for post-secondary education in the state of Washington.

Sec. 2. Section 2, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.020 are each amended to read as follows:

The purpose of the council is as follows: The ((higher)) four year educational institutions, under the autonomous governance of their governing boards, and operating within guidelines set by statute for particular institutions of higher education, have responded to the many kinds of educational needs of the people of a dynamic and growing state. They have evolved a wide array of educational services of benefit to students enrolled in degree and certificate courses, to adults returning to educational institutions for various kinds of continuing education needed to update skills and understandings in a changing world, and to government agencies, business, labor professions, and associations. The state has been well served by the delegation to the institutions of a large measure of autonomy which has enabled them to cooperate in achieving educational and operating effectiveness. Opportunity for such institutional initiative and institutional voluntary cooperation should be preserved and encouraged to the largest possible extent.

With the increase in the number of post-secondary institutions and in the scope, variety, and extent of ((higher)) education demanded of the institutions by the people of a dynamic state and the evident need to maintain articulation and coordination among the parts of a more complex system of ((higher)) post-secondary education, it is desirable to establish a council to facilitate planning for ((higher)) post-secondary education.

To assure maximum effectiveness of the agency, its deliberations should be participated in by representatives of the governor, the ((legislature)) public, and the institutions, ((of higher)) agencies, and systems of public and private post-secondary education.

Sec. 3. Section 3, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.030 are each amended to read as follows:

The council may perform any of the following functions:

(1) Engage in overall planning for ((higher)) post-secondary education in the state, which shall include the collection and analysis of necessary data from public, and where appropriate private institutions of ((higher)) post-secondary education. The purpose shall be to:

(a) Assess and define the educational needs of the state to be served by ((higher)) post-secondary education;

(b) Recommend and coordinate studies to ascertain how defined educational needs are being met;

(c) Study and make recommendations concerning adult education, continuing education ((and)), public service and post-secondary educational programs;

(d) Identify priorities among the defined needs and specify the resources necessary to meet them;

(e) Differentiate roles of the community college system and the individual public institutions and identify the most effective division of responsibility among them in meeting defined needs. To facilitate this, review and recommend the creation of all new degrees and recommend which institutions shall award them; and evaluate proposals for the elimination of existing degrees. Identify changing conditions which may require the revision of these roles and division of responsibility of the institutions.

(2) In the execution of the above planning responsibilities, develop criteria for the need for new baccalaureate institutions; and recommend the establishment, location and role of any new public baccalaureate granting institutions, and review the plans for the community college system in terms of their articulation with planning for ((higher)) post-secondary education in the state.

(3) Study levels of fees and charges to students and, when necessary, make recommendations to the institutions, legislature, and governor.

(4) Study and make recommendations concerning admission and transfer policies.

(5) Review individual institutional operating budget requests to determine the conformity or lack thereof to the state's ((higher)) post-secondary education plan: PROVIDED, That its review of community colleges be limited to the plan prepared by the state board for community college education.

(6) Review the individual institutional capital budget requests to determine their conformity or lack thereof to the state's ((higher)) post-secondary education plan: PROVIDED, That its review

of community colleges be limited to the plan prepared by the state board for community college education.

(7) Study and make recommendations for the development of improved practices of administrative management in order to facilitate the most efficient operation of the public institutions and the avoidance of unnecessary duplication among the institutions.

(8) At the request of the governor, legislature, state board for community college education, or baccalaureate granting institutions of higher education, and in conjunction with such legislative ((~~interim~~)) standing committees on higher education as may be in existence, study and make recommendations regarding legislation affecting ((~~higher~~)) post-secondary education.

Sec. 4. Section 4, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.040 are each amended to read as follows:

The council shall consist of members who are truly representative of the public, including the minority community, and shall be selected as follows:

Nine citizen members to be appointed by the governor and confirmed by the senate as representatives of the public at large, one of whom shall be a full time undergraduate student at the time of his or her appointment at a post-secondary educational institution; ((~~two members of the house of representatives, one from each party, appointed by the speaker of the house, two members of the senate, one from each party, appointed by the president of the senate~~)) the superintendent of public instruction; ((~~two members~~)) one member of the ((~~governor's staff~~)) executive branch of government appointed by the governor; ((~~the presidents of each~~)) one president of the public universities and four-year colleges of the state who is the chairman of the council of presidents; the executive director of the state board for community college education; ((~~two presidents~~)) the executive director of the coordinating council for occupational education or its successor agency; one president of the state's private universities or four-year colleges and one ((~~community college president~~)) representative of post-secondary proprietary education, each appointed by the governor.

It shall be the duty of the director of the state board for

community college education to represent not only the state board for community college education, but also all the community colleges in the state and their respective governing boards and he is further directed and charged to act as a liaison between the council and the state board for community college education and boards of trustees of the community college districts in the state.

It shall be the duty of the superintendent of public instruction to represent the common school system presenting such information to the council as may be of assistance in the development of overall educational plans and articulation between the common school and post-secondary systems of education.

It shall be the duty of the executive director of the coordinating council for occupational education or its successor agency to represent vocational a l technical education, presenting to the council such information regarding the state plan for vocational education and other data as may be of assistance in the development of overall educational plans.

Sec. 5. Section 6, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.060 are each amended to read as follows:

Citizen members of the council shall serve for terms of six years, said terms expiring on June 30th of the sixth year of their term: PROVIDED, That ((of the citizen members first appointed by the governor, three shall be appointed for a term of two years, three shall be appointed for a term of four years and three shall be appointed for a term of six years)) the term of the student citizen member shall not exceed three years and shall be coextensive with his or her tenure as a student except for summer sessions.

((The four legislators appointed by the president of the senate and the speaker of the house shall serve for a two year term: PROVIDED, That no legislative member of the council shall continue to serve when he is no longer a member of the legislative branch from which he shall have been appointed))

The ((members)) member of the council appointed by the governor from ((his staff)) the executive branch of government shall serve at the governor's pleasure.

The term of the superintendent of public instruction, the

executive director of the coordinating council for occupational education, and the executive director of the state board for community college education ((as well as the presidents of the public universities and colleges of the state)) shall be coextensive with their tenure in those respective offices.

The president-representatives appointed by the governor shall serve for a ((two)) four year term, or until such earlier date as each shall cease to be the president of the institution or representative of a post-secondary group from which he was appointed.

Sec. 6. Section 9, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.080 are each amended to read as follows:

By a majority vote of the citizen members, the council shall select a chairman who shall be a citizen member; and, the council shall adopt such bylaws as it sees fit.

The council shall appoint an executive coordinator of services who shall serve at the pleasure of the council. The executive coordinator of services shall be the executive officer of the council and, under the council's supervision, shall administer the provisions of this chapter. In addition, he shall be in charge of the office of the council.

The council may employ and appoint such other assistants and employees as may be required. In addition, the council may appoint deputy coordinators who shall be assistant directors for the purpose of chapter 41.06 RCW, the state civil service act, and any individual filling such a position shall serve at the pleasure of the council.

In fulfilling the duties under this chapter, the council shall make extensive use of those state agencies with responsibility for implementing and supporting ((higher)) post-secondary education plans and policies, e.g., appropriate legislative groups, the ((higher)) post-secondary education institutions, the ((central budget agency)) office of program planning and fiscal management, and the state board for community college education. Outside consulting and service agencies may also be employed. The council may compensate these groups and consultants in appropriate ways.

All council funds shall be expended subject to the approval of the chairman. All matter related to payment of compensation and

other expenses of the council shall be subject to the state budget and accounting act.

Sec. 7. Section 10, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.090 are each amended to read as follows:

The council shall meet at least four times each year and at such other times as determined by the chairman who shall give reasonable notice to members of every meeting prior thereto. A majority of the citizen members shall constitute a quorum to conduct the affairs of the council; PROVIDED, That no action shall be taken by less than five affirmative votes therefor.

Sec. 8. Section 11, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.100 are each amended to read as follows:

The council shall from time to time make reports both to the governor and the ((joint committee on higher education)) legislature.

NEW SECTION. Sec. 9. The council is designated as the state commission as provided for in section 1202 of the education amendments of 1972 (public law 92-318), as now or hereafter amended; and shall perform such functions as is necessary to comply with federal directives pertaining to the provisions of such law: PROVIDED, That notwithstanding the provisions of RCW 28B.80.050, all members of the council shall have full voting powers in taking actions related to federal post-secondary educational planning functions as provided for in this section and sections 12 through 15 of this 1975 amendatory act.

Sec. 10. Section 14, chapter 277, Laws of 1969 ex. sess. and RCW 28B.80.900 are each amended to read as follows:

Nothing in this chapter shall be deemed to derogate or detract from the powers and duties conferred by law upon the separate governing boards of the state's institutions of higher learning, the state board for community college education, the superintendent of public instruction, or the powers and duties of any other administrative agency.

PART 2—CODE CHANGES RESULTING FROM ACT'S SUBSTANTIVE CHANGES

NEW SECTION. Sec. 11. The following acts or parts thereof are each hereby repealed:

(1) Sections 1, 3, 4, 5, 6, 7, 8, 9, and 12, chapter 263,

Laws of 1969 ex. sess. and RCW 28B.81.010, 28B.81.030, 28B.81.040, 28B.81.050, 28B.81.060, 28B.81.070, 28B.81.080, 28B.81.090 and 28B.81.900; and

(2) Section 2, chapter 263, Laws of 1969 ex. sess., section 10, chapter 102, Laws of 1970 ex. sess. and RCW 28B.81.020.

NEW SECTION. Sec. 12. There is added to chapter 223, Laws of 1969 ex. sess. and to chapter 28B.80 RCW a new section to read as follows:

The council shall administer the following programs: Title IV-B and VI of the Higher Education Act of 1965; Title I of the Higher Education Facilities Act of 1963; and any other federal act pertaining to higher education which is not administered by another state agency.

NEW SECTION. Sec. 13. There is added to chapter 223, Laws of 1969 ex. sess. and to chapter 28B.80 RCW a new section to read as follows:

The council shall:

(1) Prepare plans and participation as required by Title VI of the Higher Education Act of 1965 and Title I of the Higher Education Facilities Act of 1963. The plan so prepared shall set forth objective standards and methods, consistent with basic criteria prescribed by the United States commissioner of education; for determining the relevant priorities; and the federal share of the development cost of eligible projects for construction of academic facilities and for the purchase of undergraduate instruction equipment submitted by institutions of higher education in this state.

(2) Conduct surveys and studies as may be necessary for the determination of the state participation in Title I of the Higher Education Facilities Act and Title VI of the Higher Education Act of 1965 and to this end may cooperate with other agencies.

(3) Provide for affording to every applicant who has submitted a project to the council an opportunity for a fair hearing before the council as to the priority assigned to such project or as to any other determination of the council adversely affecting such applicant.

(4) Provide for such fiscal control and fund accounting as may be necessary to assure proper disbursement of an accounting for federal funds paid to the council and for the making of such reports in such form and containing such information as may be necessary to enable the commissioner of education to perform his function.

NEW SECTION. Sec. 14. There is added to chapter 223, Laws of 1969 ex. sess. and to chapter 28B.80 RCW a new section to read as follows:

The council is authorized to receive and expend federal funds and any private gifts or grants, such federal funds or private funds to be expended in accordance with the conditions contingent in such grant thereof.

NEW SECTION. Sec. 15. There is added to chapter 223, Laws of 1969 ex. sess. and to chapter 28B.80 RCW a new section to read as follows:

The council shall administer any state program or state-administered federal program of student financial aid now or hereafter established.

Sec. 16. Section 8, chapter 222, Laws of 1969 ex. sess. and RCW 28B.10.802 are each amended to read as follows:

As used in RCW 28B.10.800 through 28B.10.824:

(1) "Institutions of higher education" shall mean any public or private college, university or community college in the state of Washington which is accredited by the Northwest Association of Secondary and Higher Schools; and an institute of higher education shall also mean any public vocational-technical institute in the state of Washington.

(2) The term "financial aid" shall mean loans and/or grants to needy students enrolled or accepted for enrollment as a full time student at institutions of higher education.

(3) The term "needy student" shall mean a post high school student of an institution of higher learning as defined in subsection (1) above who demonstrates to the commission the financial inability, either through his parents, family and/or personally, to meet the total cost of board, room, books, and tuition and incidental fees for any semester or quarter.

(4) The term "disadvantaged student" shall mean a post high school student who by reason of adverse cultural, educational, environmental, experiential, familial or other circumstances is unable to qualify for enrollment as a full time student in an institution of higher learning, who would otherwise qualify as a needy student, and who is attending an institution of higher learning under an established program designed to qualify him for enrollment as a full time student.

(5) "Commission" shall mean the council for post-secondary education created in RCW 28B.80.010 as now or hereafter amended.

Sec. 17. Section 1, chapter 23, Laws of 1972 ex. sess. and RCW 28B.10.840 are each amended to read as follows:

The term "institution of higher education" whenever used in RCW 28B.10.840 through 28B.10.844, shall be held and construed to mean any public institution of higher education in Washington. The term "educational board" whenever used in RCW 28B.10.840 through 28B.10.844, shall be held and construed to mean the state board for community college education((,)) and the council on ((higher)) post-secondary education((, and the commission on higher education)).

NEW SECTION. Sec. 18. If any provision of this 1975 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 19. This 1975 amendatory act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1975.

NEW SECTION. Sec. 20. Sub-act titles shall not be deemed any part of this 1975 amendatory act.

I, Sidney R. Snyder, Secretary of the Senate of the State of Washington do hereby certify that the attached is enrolled Substitute Senate Bill No. 2463 as passed by the Senate and the House of Representatives on the dates hereon set forth.

Secretary of the Senate

STATE OF WASHINGTON
OFFICE OF THE GOVERNOR
OLYMPIA

DANIEL J. EVANS
GOVERNOR

June 4, 1975

To the Honorable, the Senate
of the State of Washington

Ladies and Gentlemen:

I am returning herewith without my approval as to one section Substitute Senate Bill No. 2463 entitled:

"AN ACT Relating to vocational education; creating the commission for vocational education; transferring certain powers, duties, responsibilities, personnel, funds and equipment."

Section 15 of the bill empowers the state board of education to adopt rules and regulations for vocational-technical institutes as authorized by the act. The entire thrust of this bill, and the purpose of the prolonged negotiations that went into its formulation, was to place the responsibility for vocational education in a single, new commission. The effect of this section is to divide again this responsibility and negate much of the efforts of those who have sought to resolve the problems that led to the enactment of this bill. Accordingly, I have determined to veto section 15.

With the exception of section 15, the remainder of Substitute Senate Bill No. 2463 is approved.

Respectfully submitted,

Daniel J. Evans
Governor

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Section 1. The purpose of this amendatory act is to provide for a comprehensive planning process and a decision making system for vocational education programs in the state of

Washington and to establish administrative responsibility for the receipt and allocation of federal vocational funds.

It is the intent of this amendatory act that whenever possible, comprehensive and coordinated educational programs shall be provided at the secondary and postsecondary education levels and such programs shall include therein vocational, occupational, and technical offerings, both within the secondary and postsecondary education systems.

NEW SECTION. Sec. 2. As used in this amendatory act the following definitions shall apply:

(1) "Commission" shall mean the commission for vocational education.

(2) "Secondary education system" shall mean those educational courses and programs, within the jurisdiction of the superintendent of public instruction, being offered in the common schools of the state of Washington in the grades 7 through 12, or any part thereof, which are traditionally provided for the purpose of granting a recognized certificate of completion or a high school diploma: PROVIDED, That notwithstanding the provisions of this chapter and RCW 28B.50.140(1), existing vocational-technical institutes operating within the secondary school system shall continue to function within the common school system.

(3) "Postsecondary education system" shall mean those educational courses and programs, not within the jurisdiction of the superintendent of public instruction, being offered beyond secondary education by institutions of higher education in the state of Washington to those who hold a certificate of completion or high school diploma which includes academic, vocational, technical or professional training traditionally leading to an associate, baccalaureate or higher degree or a certificate of achievement.

(4) "Vocational education" shall mean a planned series of learning experiences, the specific objective of which is to prepare persons to enter, continue in, or upgrade themselves in gainful employment in recognized occupations, homemaking, home and family life programs, and volunteer fire fighting training, which are not designated as professional or requiring a baccalaureate or higher

degree.

(5) "State plan" shall mean the Washington state plan for vocational education, adopted as required by Public Law 88-210 as amended, and other federal congressional and administrative directives pertaining to vocational education, and shall be the single comprehensive plan which provides approval standards for vocational education operated in or by community colleges, common schools, area nongraded vocational-technical institutes, occupational skill centers, state institutions, private proprietary and parochial schools, on-the-job training facilities or any other training location where local, state or federal vocational funds are allocated: PROVIDED, That standards of, rules and regulations for, and supervision of indentured apprenticeship in the apprenticeable crafts shall continue to be governed by the director of labor and industries and the state apprenticeship council in accordance with chapter 49.04 RCW.

(6) "Vocational-technical institute" shall mean a specialized area nongraded vocational education facility established and operated for the purpose of offering comprehensive courses primarily oriented to the job market area in vocational education for persons sixteen years of age and older without regard to residence, pursuant to laws and rules and regulations pertaining to the maintenance, operation, and capital funding of vocational-technical institutes: PROVIDED, That service areas for common school vocational-technical institutes shall be defined specifically by the commission, recognizing areas traditionally served.

(7) "Advisory council" means the advisory council for vocational education established within this state pursuant to 20 USCA 1244B.

NEW SECTION. Sec. 3. There is hereby established a commission for vocational education comprised of seven members, each of which shall be a voting member. The chairman shall be a citizen member chosen by a majority of its members pursuant to its bylaws. Five citizen members shall be appointed by the governor and confirmed by the state senate. The superintendent of public instruction and the director of the state board for community college education shall

serve as the remaining two members. In making citizen member appointments initially, and subsequently thereafter, the governor shall be cognizant of the desirability of appointing persons well versed regarding vocational and occupational needs of management, labor, and agriculture.

The initial citizen appointments shall be for periods of one, two, three, four, and five years. Thereafter such citizen members shall serve for terms of five years. No citizen member shall be eligible to serve who is also a member of a state or local educational agency, board, council or commission, or who is employed by a common school or institution of higher education.

Four members shall constitute a quorum, and no action shall be taken by less than four affirmative votes.

NEW SECTION. Sec. 4. The commission for vocational education shall have the following functions:

(1) Plan development. The commission shall be responsible for complying with federal directives to insure the development and maintenance of a state plan for vocational education but initial planning shall be accomplished by the secondary and postsecondary education systems. Prior to the adoption of the state plan, the commission shall request comments from the council on higher education and the advisory council for vocational education.

(2) State plan modification adjudication. Decisions on new programs and/or facilities for vocational education shall be made internally within the respective secondary or postsecondary education system in accordance with the provisions of the state plan. The commission may review such decisions to insure compliance with the state plan and avoid unnecessary duplication of current or projected programs.

Any common school or community college district, or the superintendent of public instruction, or the state board for community college education, or other interested parties as authorized by the commission, shall be afforded the opportunity to comment upon any new programs or facilities proposed. The commission, subject to dispute resolution rules adopted by said commission, shall have the final determination on any disputes

arising out of such program proposals.

In adjudicating disputes between the two secondary and postsecondary education systems regarding the state plan, the commission will use at least the following criteria: Recognition that secondary education is constitutionally the responsibility of the superintendent of public instruction and that by legislative action postsecondary education is the responsibility of institutions of higher education; adhere to the general policy set forth in the state plan; consider the particular vocational need of the community, region, or state and whether the common school or community college, or both, can best respond to those needs; encourage cooperation and coordination rather than competition and program conflict between secondary and post secondary education systems; consider the desires and preferences of the residents of the immediate program service area and of the representatives of the fields of management, labor, and agriculture which benefit from possible program offerings; and avoid unnecessary duplication of vocational education programs and facilities.

(3) Vocational education administration. The commission shall be the sole agency for the receipt and allocation of federal funds in accordance with the state plan. The supervision of the state plan shall be carried out by the commission; however, daily administration of the state plan shall be primarily the responsibility of the superintendent of public instruction and the state board for community college education: PROVIDED, That the commission shall review and approve state plan development proposals or special programs requiring personal service contracts, and activities beyond the program responsibilities of the superintendent of public instruction and the state board for community college education.

Under the state plan the commission shall make periodic compliance audits at least once a biennium of the vocational education programs individually and jointly conducted by the common schools and community colleges to insure compliance with the state plan.

The commission shall be the primary state liaison with the

federal government for the state plan for vocational education.

NEW SECTION. Sec. 5. In addition to powers and duties under section 4 of this amendatory act, the commission shall make periodic reports to the governor and the legislature. The initial report shall be submitted, with the governor's comments, to the 1977 legislature by December 1, 1976 and shall include, but not be limited to, review of and recommendations on the following: (1) Vocational education program modification, including common informational data systems; (2) reorganization of the administration of vocational education; (3) an appropriate level of expenditure for the state administration of vocational education programs; (4) appropriate charges for vocational and adult education programs in the secondary and postsecondary education systems; and (5) provisions for personnel standards for vocational education instructors.

Such recommendations, to the greatest extent possible, shall comply with the intent of this amendatory act and be consistent with federal requirements.

NEW SECTION. Sec. 6. The commission is authorized to promulgate such rules and regulations as are necessary to comply with the intent of this amendatory act in accordance with chapter 34.04 RCW, the administrative procedure act, and adopt such bylaws as deemed necessary to the business of the commission. Existing rules and regulations of any state agency relating to vocational education should be considered amended in accordance with the intent of this amendatory act. Initial rules and regulations of the commission, prior to their effective date, shall be submitted to the respective rules committees of the senate and house for review concurrently at such time as notice of intent to adopt is filed. The commission is further authorized to take whatever action is necessary to insure compliance with federal vocational education enactments and state legislative and administrative directives concerning vocational education. The commission is also authorized to delegate by commission resolution to the executive director those functions it deems necessary to the operation of the commission.

The commission shall meet, consult and cooperate with the office of the state superintendent of public instruction on all

matters falling within his constitutional supervisory powers in advance of exercising any of the powers or duties granted to the commission by this chapter.

NEW SECTION. Sec. 7. Common school districts and community college districts shall cooperate in offering vocational education programs, particularly when establishing specialized facility support for such programs. Such cooperation shall also extend to noncredit vocational courses in common school community education programs and community college community service programs as the same are authorized in RCW 28A.58.247 and 28B.50.020.

Except as provided for by the rules and regulations of the commission, (1) common school vocational-technical institutes shall not offer new or expanded vocational programs outside their traditional service areas; (2) community colleges shall not offer new or expanded vocational programs outside their college districts. Common school vocational-technical institutes and community colleges desiring to offer new or expanded programs outside their respective service areas or community college districts shall provide reasonable notice, as determined by the commission, to the common school and community college districts affected thereby.

If such joint cooperation cannot be attained at the local level the superintendent of public instruction and the state board for community college education shall attempt to resolve the matter. Matters unresolved shall be referred to the commission for adjudication.

NEW SECTION. Sec. 8. Members of the commission will receive per diem in lieu of compensation, and travel expenses in accordance with standard rates for part time boards, councils, and commissions as certified by the state budget director.

NEW SECTION. Sec. 9. The coordinating council for occupational education is hereby abolished effective midnight June 30, 1975, and its education responsibilities, personnel, property and equipment are transferred to the commission for vocational education unless otherwise provided for in this amendatory act.

NEW SECTION. Sec. 10. The commission may employ an executive director and such other personnel as may be necessary to carry out

the purposes of this amendatory act. The commission in accordance with section 4 of this amendatory act shall keep its professional staff to the minimum number of persons necessary to fulfill its duties under this amendatory act and the performance of such other administrative responsibilities as the legislature may provide.

NEW SECTION. Sec. 11. The superintendent of public instruction may authorize common schools to contract with community colleges to provide adult high school completion programs if he determines that such programs effectively fulfill the purposes of secondary education: PROVIDED, That except as subject to the action of the superintendent of public instruction, adult high school completion programs conducted by the community colleges as authorized by RCW 28B.50.092 or 28B.50.535 shall remain in the community colleges.

NEW SECTION. Sec. 12. The governor is hereby authorized, with the advice of the office of program planning and fiscal management to determine to which of the following state agencies those functions of the coordinating council for occupational education not herein transferred to the commission for vocational education shall be transferred: The council on higher education; the department of social and health services; the department of labor and industries; the superintendent of public instruction; the state board for community colleges, or any educational administrative agency created during the forty-fourth legislative session. The governor has the authority to transfer such personnel, funds, and equipment to the agency he so determines as may be necessary to carry out those functions. The governor shall make a report to the legislature concerning such determinations as he has made by December 1, 1975. All remaining funds of the coordinating council not disposed of or otherwise provided for in this amendatory act shall remain within the jurisdiction of the commission.

Sec. 13. Section 4, chapter 285, Laws of 1971 ex. sess. and RCW 28A.09.120 are each amended to read as follows:

For the purposes of ((Title 28A RCW)) this title:

(1) ((The term "vocational education" shall mean a planned series of learning experiences, the specific objective of which is to

prepare persons to enter, continue in or upgrade themselves in gainful employment in recognized occupations and homemaking, which are not designated as professional or requiring a baccalaureate or higher degree.

((2)) The term "occupational exploration" shall include prevocational education. The term "occupational exploration" shall mean a series of educational experiences designed to (a) assist individuals in developing their understanding of, appreciation for, aptitudes for, and abilities in recognized occupations; (b) develop an attitude of respect toward work and pride in workmanship; and (c) provide knowledge and experience to assist in the choice of an occupational program.

((~~(3)~~)) (2) The terms "industrial arts" and "practical arts" shall mean general education centered around the industrial and technical aspects of current living, offering orientation in and appreciation for production, consumption, and recreation through actual experiences with materials and goods and also providing exploratory experiences which are helpful in the choice of a vocation.

((~~(4)~~)) (3) The term "job market area" shall mean the geographic area for recruitment and placement of job entrants, usually determined by each industry or by a collective bargaining agreement.

Sec. 14. Section 28B.50.230, chapter 223, Laws of 1969 ex. sess. and RCW 28B.50.230 are each amended to read as follows:

(1) The ((coordinating council)) commission in preparing the state plan for vocational education shall give consideration to the following:

(a) Vocational education for persons attending high school;

(b) Vocational education for persons who have completed or left high school and who are available for full time study in preparation for entering the labor market;

(c) Vocational education for persons (other than persons who are receiving training allowances under the Manpower Development and Training Act of 1962, Public Law 87-415, the Area Redevelopment Act, Public Law 87-27, or the Trade Expansion Act of 1962, Public Law 87-

794 or any successor statutes thereto) who have already entered the labor market and who need training or retraining to achieve stability or advancement in employment;

(d) Vocational education for persons who have academic, socio-economic, or other handicaps that prevent them from succeeding in the regular vocational education program;

(e) Construction of area vocational educational school facilities, as authorized by the state board for community colleges and the state board of education; and

(f) Ancillary services and activities to assure quality in all vocational education programs, such as teacher training and supervision, program evaluation, special demonstrations and experimental programs, development of instructional materials, and state administration and leadership, including periodic evaluation of state and local vocational education programs and services in the light of information regarding current and projected manpower needs and job opportunities.

(2) In determining the allocation of funds, the ((council)) commission shall comply with federal statute.

Sec. 15. Section 28B.50.240, chapter 223, Laws of 1969 ex. sess. as last amended by section 1, chapter 285, Laws of 1971 ex. sess. and RCW 28A.09.100 are each amended to read as follows:

The state board of education shall have the power to authorize the school districts to offer vocational education programs in the elementary and secondary schools and the state board shall adopt rules and regulations to implement such programs and shall also adopt such rules and regulations for programs authorized by RCW 28A.58.245 and ((28B.50.776)) for vocational-technical institutes as provided for by this amendatory act.

Sec. 16. Section 53, chapter 283, Laws of 1969 ex. sess. and RCW 28B.50.246 are each amended to read as follows:

The advisory council shall:

(1) Advise the ((coordinating council)) commission on vocational education on the development of and policy matters arising in the administration of the state plan for federally funded vocational education pursuant to RCW 28B.50.230, including the

preparation of long range and annual program plans therefor;

(2) Evaluate such vocational education programs, services, and activities assisted under this title, and publish and distribute the results thereof;

(3) Prepare and submit through the ((coordinating council)) commission on vocational education to the federal commissioner of education and to the national advisory council on vocational education an annual evaluation report, accompanied by such additional comments of the ((coordinating council)) commission as the ((coordinating council)) commission deems appropriate, which (a) evaluates the effectiveness of federally funded vocational education programs, services, and activities carried out in the year under review in meeting the program objectives set forth in the long range program plan and the annual program plan, and (b) recommends such changes in such programs, services, and activities as may be warranted by the evaluations; and

(4) Obtain the services of an executive director and confidential secretary to such director, both of whom shall be exempt from the provisions of chapter 41.06 RCW, and such professional, technical, and clerical personnel as may be deemed necessary to enable it to carry out its functions under this section and to contract for such services as may be necessary to enable them to carry out their evaluation functions.

NEW SECTION. Sec. 17. Sections 1 through 11 of this amendatory act and RCW 28A.09.070, 28A.09.080, 28A.09.090, 28A.09.100, 28A.09.110, 28A.09.120 as now or hereafter amended, 28A.09.200, 28B.50.221, 28B.50.230 as now or hereafter amended, 28B.50.245 and 28B.50.246 as now or hereafter amended, each of which RCW sections are hereby decodified, are added to the Revised Code of Washington as a new title thereof, Title 28C, Vocational Education.
